太原钢铁（集团）有限公司（简称太钢）是中国特大型钢铁联合企业和全球最大、工艺技术装备水平最高、品种规格最全的不锈钢企业。经过70余年发展，已具备1000万吨以上钢、铁、材的生产能力，其中不锈钢产能达300万吨。2009年生产不锈钢248万吨，产量世界第一！

太钢是中国第一炉不锈钢、第一炉硅钢、第一张硅钢片的诞生地。拥有铁矿石等钢铁冶炼原料的采掘与加工、钢铁冶炼、钢铁材料压力加工、冶金设备及备品备件制造等方面先进技术和装备，主要产品有不锈钢、冷轧硅钢片（卷）、热连轧卷板、车轴钢、合金模具钢、军工钢等。产品广泛应用于石油化工、交通运输、建筑装饰、家用电器、医疗食品等行业及神舟系列飞船、嫦娥一号、“东风”系列火箭及核电站等高端领域，进入三峡水利、西气东输、奥运场馆及世博场馆等国家重点工程。2009年在国家认定的575所企业技术中心中，太钢技术中心排名第二，位钢铁行业首位。太钢拥有以不锈钢为核心的745项具有自主知识产权的核心技术，其中100多项达到国际先进水平。

太钢的发展战略是，加快建设全球最具竞争力的不锈钢企业，实现以不锈钢为主的品种、质量、成本、研发、节能、环保、效率、服务等各项指标达到国际一流水平，建设具有国际竞争力的大企业集团。

Taiyuan Iron and Steel (Group) Co. Ltd. (TISCO) is one of the steel giants in China and, the largest stainless producer in the world in term of capacity equipped with the most advanced facilities covering pretty wide product range. After over 70 years development TISCO has the capacity of 10 million tons of steel, which includes 3 million tons of stainless. The year of 2009 saw TISCO become No.1 stainless producer in the world with production of 2.48 million tons of stainless.

In TISCO came out the first heat of stainless steel and first heat of silicon steel as well as the first sheet of silicon in the history of China steel industry. TISCO is well equipped for mining and iron ore refining, iron and steel making, rolling and forging, metallurgical equipment and spare parts manufacturing. TISCO's products cover stainless steel of cold and hot rolling, cold rolled silicon, hot rolled coil, axle steel, die steel and steel for military purpose etc. TISCO's products are widely used in petrochemical industry, transportation, construction decoration, home appliance, medical and food industry. TISCO's products can be also found in the national key projects such as Shenzhou spaceship, Chang'e-1 Moon Detector, Dongfeng rocket series and nuclear power, Three Gorges, West-East natural gas transmission, and Olympic game facility as well as Shanghai world expos. In 2009 TISCO technology centre ranked No.2 among the 575 state acknowledged enterprise technology institutions, and No.1 among the steel industry. TISCO owns 745 core patents in the field of stainless and over 100 patents are taken as the world class.

TISCO is aiming to become the most competitive stainless producer in the world, and achieve the first class stainless product in terms of product range, quality, cost, R&D, energy saving, environment protection, efficiency and service. For this goal TISCO is trying the first world class level and build itself into the world competitive large group company.

- 1996年，太钢技术中心成为国家认定的企业技术中心；
- 2004年，太钢技术中心荣获“国家认定企业技术中心成就奖”；设立“国家博士后科研工作站”；
- 2008年太钢获“中国钢铁工业产品开发市场开拓奖”、2007年获“中国自主创新行业十强”称号，2006年获“全国质量奖”、2005年获“山西省政府质量奖”；
- 2009年，太钢技术中心在全国575家国家认定企业技术中心中排名第2位，在冶金行业排第1位，在山西省排第1位；
- 太钢已拥有745项自主核心技术，其中100多项达到国际先进水平。

- In 1996, TISCO Technology Center is accredited by the State.
- In 2004, TISCO Technology Center was granted with Achievement Honorary Award and National Postdoctoral Program started.
- TISCO was granted with China Steel Product Market Development Award in 2008, China Top 10 of independent innovation industry in 2007, National Quality Prize in 2006 and Shanxi Provincial Quality Prize in 2005.
- In 2009, TISCO Technology Center ranks No.2 among the 575 state accredited enterprise technology centers, No.1 in metallurgical industry and No.1 in Shanxi Province.
- Over 100 of 145 proprietary know-hows are internationally advanced.

构建了研发、制造、营销一体化的运行机制及完善的服务体系。

- 为客户提供特定的成份、性能、规格设计。
To provide customized products.
- 为客户在选材和加工工艺方面提供技术支持。
Technical support to customers in material selection and fabrication.
- 交货准确及时。
Accurate and prompt delivery.
- 对客户异议，在24小时内答复。
Response to customer's claim within 24 hours.

营销理念 Marketing philosophy

为客户提供更全、更好、更快的解决方案 在长期合作中实现共赢

Win-win result is sought through long-term cooperation with an availability of better and quicker solution package to customers.

与太钢同行，实现巅峰梦想——太钢经销商肖屹巍登顶珠峰
Going forward with TISCO and achieving ambitious dreams! Xiao Yiwei, one of the franchiser of TISCO who had successfully climbed Everest of The Himalaya Mountains

产品应用 Application

产品应用 Application

石油/石化/化工 Petroleum / Petrochemical / Chemical Industry

太钢不锈钢产品在石油、石化、化工领域得到了广泛应用，主要用于石油钻采、炼化及深加工设备。石油钻采方面用于高温、高压、高腐蚀性环境下的采油设备（油套管）、井口装置等；炼油和化工方面用于反应釜、热交换器、吸收塔、脱硫塔、解析塔和工艺管线等。

已应用于大庆油田、兰州1000万吨炼油、大连炼油、锦西炼油、惠州炼油、广西炼油、天津大沽化工厂和神华集团煤制油等项目。

Taigang's stainless steel products are widely used in petroleum, Petrochemical, chemical industries. For petroleum drilling and exploration use they can be made into case pipes and well-top units, for example, that are exposed to high pressure, high temperature and high corrosion; for refining and chemical equipment, they are used as raw material to manufacture agitated reactor, heat exchanger, absorption tower, de-sulfurization column, desorption tower and process pipe, etc..

Taigang's products have ever been used in projects of Daqing Oil Field, Lanzhou 10-million-ton Refining Facility, Dalian Oil Refining, Jinxi Oil Refining, Huizhou Oil Refining, Guangxi Oil Refining, Tianjin Dagou Chemical Factory and Shenhua Group Coal-to-oil facility, to name a few.

主要产品：Super13Cr S31803 S32750 304L 316L S32304 S32101 904L S31254 不锈钢复合板 镍基合金

产品特点：

- 成分稳定均匀
- 耐腐蚀性高
- 低温冲击性、韧性好

Main products: Super13Cr s31803 s32750 304L 316L s32304 s32101 904L s31254 Stainless steel cladding plate Nickle-based alloy

Product features:

- Stable and constant composition
- High corrosion-resistant performance
- Resistance to cryogenic impact and excellent ductility

/// 电力 Power Generation

○ 火电 / 水电 Fossil fired power generation / hydropower generation

太钢不锈钢产品主要应用于火力发电、水力发电设备，在国内“三大动力”发电设备制造企业哈电、东电、上电得到广泛应用，打破了长期依赖进口的局面。

主要应用于加热炉的各种构件、锅炉吊挂件、60万千瓦和100万千瓦超超临界锅炉过热气管和再热气管、水轮机叶片等。

主要产品: S30815 (253MA) TP347H TP310HCbN Super304H S135 S165 317L 不锈钢复合板

产品特点:

- ◆ 良好的抗高温氧化、高温蠕变、高温塑性
- ◆ 良好的抗高温蒸汽腐蚀性能、耐晶间腐蚀性能
- ◆ 良好的焊接和冷、热加工性能
- ◆ 高强度、高韧性、高耐磨性能

Taigang's stainless steel products find applications successfully in fossil fired power generation/hydropower generation sectors, evidenced by the fact that they are well received in "the three domestic leaders of power generation" — Harbin Electrics, Dongfang Electrics, Shanghai Electrics, breaking the monopoly of import in this market.

They are perfect to manufacture heating furnace elements, boiler hangers and suspensions, over-heating steam pipe and re-heating steam pipe for super super-critical boiler of 600-1000 mega watts, water turbine impeller, etc.

Main products: S30815 (253MA), TP347H, TP310HCbN, Super304H, S135, S165, 317L stainless steel cladding plate

Product features:

- ◆ Excellence in high-temperature oxidization resistance, high-temperature creeping and thermal plastic deformation.
- ◆ Great performance in resistance to hi-temp steam corrosion and inter-granular corrosion.
- ◆ Super weldability and cold/hot working performance.
- ◆ High strength, great ductility, anti-abrasion excellence.

Hydro-turbine impeller

○ 核电 Nuclear Power Station Application

太钢建立了核电材料质保体系，保证了核电用钢严格的质量控制要求。太钢核级（二级、三级）不锈钢产品应用于泰山一扩、泰山二扩、岭澳、红沿河、宁德、阳江、海阳等核电站工程，目前核一级用钢已研制成功。

2009年度太钢荣获核电国产化研发突破优秀成员单位。

主要产品: Z2CN18-10 Z2CND17-12

S32101 Z2CN19-10NS

产品特点:

- ◆ 钢质纯净高、残余元素低
- ◆ 性能稳定性好

Hongyanhe Nuclear Power Station

泰山核电站
Qingshan Nuclear Power Station

核电用高中压缸内结构
Hi-, mid- and low-pressure chamber
interior structure of nuclear power plant

堆芯板
The reactor core plate

Taigang's well established quality assurance system governing nuclear power-based material maintains its nuclear power-oriented steel production under strict control of quality requirement thereof. Taigang's stainless steel product of nuclear classification (II, III) has already been used in Qingshan first and second stage expansion project, Ling'ao, Hongyanhe, Ningde, Yangjiang, Haiyang and other nuclear power station projects. Nuclear classification I steel is successfully developed.

In 2009 Taigang is honored as the excellent enterprise on the R&D breakthrough of nuclear products in manufacturing by China.

Main products: Z2CN18-10, Z2CND17-12, S32101 Z2CN19-10NS

Product features:

- ◆ Steel produced in pure quality with least residual elements contained.
- ◆ Consistent performance of stability

/// 航空航天 Aeronautics and Astronautics

太钢不锈钢产品应用于宇航员失重训练用浮力水槽（亚洲最大）、模拟太空环境训练设备等。
神五、神六、神七系列载人飞船、嫦娥一号月球探测器的关键部位和发射火箭长三甲的三级发动机关键部件尾喷管、火箭核心燃烧室等，均采用了太钢不锈钢产品。

Taigang's stainless steel products are used for floating tank (No. 1 in size in Asia) to train astronaut in gravity loss environment, for facilities simulating outer space atmosphere, etc.

The key elements for manned spaceship SHENZHOU V, VI, VII, and moon detector Chang'e I; the key parts of the 3-stage engine that launches the rocket Long March III A — rear injection pipes, rocket core combustion chamber and others, are all made of Taigang stainless steel product.

/// 铁路 Railway

客车

太钢不锈钢产品应用于地铁、轻轨车辆制造，北京地铁5#线、10#线和时速 $\geq 200\text{km/h}$ “和谐号”大线高速客车都使用了太钢不锈钢产品。

主要产品：301L (LT, DLT, ST, MT, HT) 1.4318

铝钢复合板

产品特点：

- ◆ 高强度、美观、轻量化、寿命长、维护费低

Passenger car

Taigang's stainless steel products are used for subway cars, light-gauge rail car manufacture, for example, Beijing Subway 5 and Subway 10, EMU "Harmony" at a speed $\geq 200\text{km/h}$.

Main products: 301L (LT, DLT, ST, MT, HT), 1.4318 Aluminum-Steel cladding plate

Product features:

- ◆ High strength, great appearance, less weight, long life, low maintenance cost.

和谐号动车
EMU Harmony

铁路货车C70、C80
Railway trucks C70 C80

和谐号动车组
EMU Harmony

货车

太钢不锈钢产品应用于制造铁路载货车、铁路双层运输车和活动棚车等专用车辆。首次应用于大秦铁路运煤专用线C80B车辆，带动了铁路新一代货车用材的革命，太钢在铁路货车用不锈钢市场占有率达到90%以上。

主要产品：TCS345 T4003 铝钢复合板

产品特点：

- ◆ 良好的耐蚀性、耐磨性和滑动性
- ◆ 良好的抗疲劳性和低温冲击性
- ◆ 维护费用低

Rail trucks

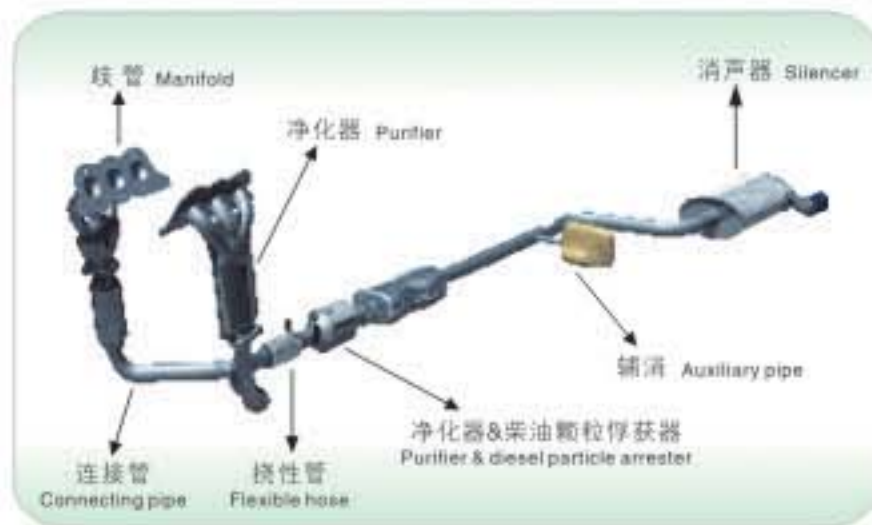

Taigang's stainless steel product is used in manufacturing special purpose rail trucks, such as cargo-load cars, double-deck cars and top-removable stock cars. It was first used for C80B cars dedicated for coal delivery on Daqing railway, taking lead in updating railway facility with new material. Taigang takes a 90% more market share in stainless steel supply to railway trucks.

Main products: TCS345 T4003 Aluminum-Steel cladding plate

Product features:

- ◆ Good anti-corrosion, wear-proof and sliding performance.
- ◆ Excellent fatigue-resistance and cryogenic impact-resistant performance
- ◆ Low maintenance cost.

/// 汽车 Automobile

太钢不锈钢产品广泛应用于汽车排气系统、汽车轮毂、汽车装饰件、发动机冷却器垫片及雨刷器等。

太钢汽车排气系统用不锈钢应用于全球最大的三家排气系统制造厂，国内市场的占有率50%以上。

主要产品：409L 436L 441 439M

产品特点：

- ◆ 化学成分和力学性能稳定
- ◆ 延伸性能优良
- ◆ 耐腐蚀性、焊接性、成型性优良

Taigang's stainless steel products are widely used for automobile's exhaust pipe assembly, tyre rim, decorating parts, engine cooler pad and rain wiper.

Taigang's stainless steel for exhaust pipes is supplied to three biggest exhaust pipe makers of the world, holding 50% more of domestic market share.

Main products: 509L, 436L, 441, 439M.

Product features:

- ◆ Stable chemical composition and mechanic performance
- ◆ Super elongation
- ◆ Excellent anti-corrosion, weldability and forming performance.

/// 船舶 Shipbuilding

远洋货轮 Transoceanic cargo carrier

化学品船 Chemical ship

集装箱船 Container ship

太钢不锈钢产品应用于化学品船贮藏各种液态化学品货舱和各种船舶螺旋桨导流槽制造，目前已取得英劳、德劳等六国船级社认证。

主要产品：316L 304L S31803 S32205 S32101 S32304 不锈钢复合板

产品特点：

- ◆ 强度高、低温冲击韧性好
- ◆ 耐腐蚀性能强

Taigang's stainless steel products are used to manufacture chemical ships' hold to store liquid chemicals and the guide channel of ship's impeller. It has obtained certification approved by 6 classification societies including Lloyd's UK and Lloyd's Germany.

Main products: 316L 304L S31803 S32205 S32101 S32304 Stainless steel cladding plate

Product features:

- ◆ High strength, good cryogenic impact-resistant performance.
- ◆ Super corrosion proofness.

螺旋桨导流槽S32304 Guide channel of impeller

/// 集装箱 Container

太钢不锈钢产品应用于中集、胜狮、马士基等知名集装箱企业，已成为全球最大的冷藏集装箱用不锈钢冷轧板的供应商，也是国内唯一不锈钢罐箱宽幅冷扎材料供应商。

主要产品: SUS304 SUS410L TTS443

PTG316L TTG316L 1.4402

1.4404 不锈钢复合板

产品特点:

- ◆ 强度高
- ◆ 成型性好

Taigang's stainless steel products have been widely used in well-known companies such as CIMC, SUNLION, MASERK and TAIGANG has already become the biggest supplier of cold-rolled plate for refrigerated container, and is the only supplier for stainless steel container and tank material of broad width Cold rolled in China.

Main products: SUS304 SUS410L TTS443

PTG316L TTG316L 1.4402

1.4404 Stainless steel cladding plate

Product features:

- ◆ High strength
- ◆ Good formability

冷藏式集装箱
Refrigerating container

罐箱

/// 桥梁 Bridge

武汉天兴洲大桥
Wuhan Tianxingzhou Bridge

杭州湾跨海大桥
Hangzhou Bay Cross-sea Bridge

太钢不锈钢产品应用于杭州湾跨海大桥、武汉天兴洲大桥、上海东海大桥等项目的特殊结构部位。

主要产品: S32205 304 316L

产品特点:

- ◆ 高强度、高韧性
- ◆ 高耐腐蚀性
- ◆ 安全性好、寿命长，维护费用低

TAIGANG's stainless products have been used in special location for construction of Hangzhou Bay Cross-sea Bridge, Wuhan Tianxingzhou Bridge, and Shanghai Donghai Bridge projects etc.

Main products : S32205 304 316L

Product features:

- ◆ High strength, high ductility
- ◆ High anti-corrosion performance
- ◆ Good security, long life and low maintenance fee.

水利 Hydro-construction

太钢不锈钢产品应用于三峡水电站、向家坝水电站等国家重点水利工程。

主要产品: 304N 304NbN S135 S165 不锈钢复合板

产品特点:

- ◆ 高强度、高韧性
- ◆ 高耐磨蚀性能
- ◆ 表面硬度高, 满足水利工程过流部件长期承受泥沙冲刷的要求

Taigang stainless products have been used in national key hydro-constructions such as Three Gorges Hydropower Station and Xiangjiaba Hydropower Station.

Main products: 304N 304NbN S135 S165 Stainless steel cladding plate

Product features:

- ◆ High strength, high ductility
- ◆ High abrasion resistant performance
- ◆ High surface hardness is perfect for parts exposed permanently to mud corrosion that are used in hydro-constructions.

环保 Environmental Protection

太钢不锈钢产品主要用于环境污染防治, 废水、废气及废渣处理回收专用设备的制造。如电厂烟气脱硫装置出口烟道、冷凝器管、聚甲基塔反应器和污水处理设备等。

主要产品: S32750 317L TD305B 不锈钢复合板

产品特点:

- ◆ 耐腐蚀性能优良
- ◆ 使用寿命长

Taigang's stainless steel products are mainly used for special devices and equipment of environmental pollution prevention and treatment, as well as recycling of waste water, gas and residue, such as outlet stack of desulphurization device of power plant, reactor of POM (polyoxymethylene) tower and sewage treatment plant.

Main products: S32750 317L TD305B

Stainless steel cladding plate

Product features:

- ◆ Great anti-corrosion performance
- ◆ Long life

污水处理
Sewage treatment plant

垃圾焚烧厂
Waste calcinations plant

不锈钢防尘网
Stainless steel dust shielding screen

/// 建筑/装饰 Construction / Decoration

太钢不锈钢产品广泛应用于城市景观、宾馆、写字楼、商场及体育场馆等公共设施、幕墙及装潢装饰，并应用于OTIS、日立、三菱等高档名牌电梯。

主要产品：304 430 TTS443M TTS439 316L S32205 轧制不锈钢复合板

产品特点：

- 磨砂纹路细腻
- 色泽均匀
- 表面光洁

Taigang's stainless steel products are widely used for curtain wall and decoration of public establishments, city landscaping, hotel, office building, shopping center, gymnastic and sports stadium etc. They are purchased by famous elevator makers such as OTIS, Hitachi, Mitsubishi and others.

Main products: 304 430 TTS443 TTS439 316L S32205 Rolled stainless steel cladding plate

Product features:

- Exquisite sand-grinding line
- Homogeneous color and luster
- Smooth and glossy surface

自动扶梯
Escalator

Subway

/// 医疗/食品 Medical Treatment / Food

太钢不锈钢产品主要用于医疗设备、制药设备和医疗器械的制造，并应用于美国GE公司的MRI（核磁共振）设备。

主要产品：304 316L 317L 420 420J1

产品特点：

- 耐腐蚀性优良
- 使用寿命长、易于清洁
- 高强度、高韧性

Taigang's stainless products are mainly used in manufacture of medical treatment equipment, pharmaceutical plant as well as medicare devices, and also used in MRI (Magnetic Resonance Imaging) device of GE (General electric), USA.

Main products: 304 316L 317L 420 420J1

Product features:

- Great anti-corrosion performance
- Long to use, easy to clean
- High strength, high ductility

太钢不锈钢产品主要用于食品饮料过滤及提纯设备，酒类酿造及贮存设备等。

主要产品：304 TKJF-1 TKJF-2 TKJA-1

产品特点：

- 优良持久的抗菌性能
- 耐蚀性能、力学性能优良
- 钢质纯净度高

Taigang's stainless steel products are mainly used for manufacturing filtering and extracting devices of food and beverage sectors, wine brewage devices and stock devices etc.

Main products: 304 TKJF-1 TKJF-2 TKJA-1

Product features:

- Excellent and durable anti-bacteria performance
- Good anti-corrosion and mechanics performance
- High purity steel

/// 钟表 Clocks & Watches

不锈钢钟表系列
Stainless steel watches

太钢不锈钢产品应用于国际名牌钟表制造。

主要产品: 304 316L

产品特点:

- 钢质纯净度高
- 精加工性能好

Taigang's stainless steel products are widely used in manufacture of clocks and watches by global famous brands.

Main products: 304 316L

Product features:

- High purity steel
- Good performance of fine machining

/// 硬币 Coin

太钢依靠雄厚的科研实力与中国印钞造币总公司合作, 开发出了具有世界领先水平和防伪技术的不锈钢材料“太钢牌”硬币钢, 填补了国内空白, 实现了一角硬币用不锈钢的国产化。硬币的外观、色泽等指标均优于其它材料。

Depending on its solid scientific research and cooperating with CBPMC(China Banknote Printing and Minting Company), Taigang developed the world-leading and anti-counterfeiting stainless material "Taigang brand" coin steel, filling the gap of domestic supply and making possible local production of dime coins made from stainless steel. Appearance and color of coin is better than other material.

奥运工程 Olympic Constructions

奥运主体育场“鸟巢” Olympic stadium "Bird's Nest"

奥运场馆用不锈钢

在2008年北京奥运会击剑场馆中，蚀刻有奥运五环标志的比赛场地采用了太钢的不锈钢；奥运主体育场“鸟巢”、游泳中心“水立方”、青岛奥运帆船赛场、首都国际机场3#航站楼等一大批工程都使用了太钢不锈钢产品。

Stainless steel applied to Olympic stadiums

In the Fencing Hall of 2008 BEIJING Olympic Games, Taigang's stainless steel products are used for railings with Olympic "five-ring" logo etched on it; Taigang's stainless steel products have also been widely used in the main Olympic stadiums "Bird's Nest" and swimming center "Water Cube", Qingdao Olympic sailboat matching field, No.3 terminal building of capital international airport projects etc.

IT / 新能源 IT / New Energy

太钢不锈钢精密带钢产品广泛应用于IT及新能源行业，例如硬盘外壳、手机部件、光刻蚀刻、电子枪部件和柔性太阳能光伏电池衬底等。

主要产品：301(1/2H、3/4H、H、EH、SH) 304(1/2H、3/4H、H) 430

产品特点：

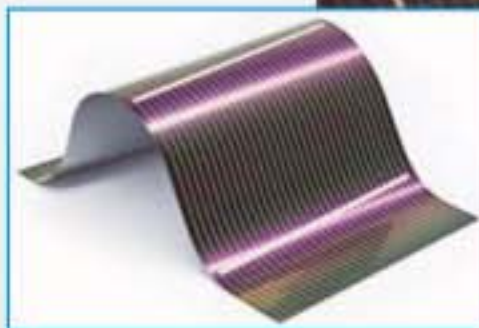

- ◆ 超平超薄
- ◆ 性能稳定性好

TISCO stainless precision strip products are widely used in the fields of IT and new energy, such as the shell of hard disk, small parts of cell phone, laser cutting and etching, electron gun and lining plate of solar energy photovoltaic battery etc.

main products: 301(1/2H, 3/4H, H, EH, SH) 304(1/2H, 3/4H, H) 430

The characteristics of products:

- ◆ Super flat and super thin
- ◆ Excellent and stable property
